SchoolSpire's Common Core State Standards Item Bank

SchoolSpire has provided school districts across the nation reliable instructional management, assessment, curriculum, teacher evaluation, and lesson planning tools for the last 18 years. We are pleased to expand our client services to include standards-based item banks including Facilitate-CCSS, which covers grades K-11 in English and K-8 in Mathematics Common Core State Standards.

Our 100% Aligned CCSS Item Bank

Access over 12,000 items and over 1,100 pre and post-tests coded specifically to CCSS standards providing coverage for all grades K-12.

Grade Level Tests

Facilitate-CCSS' grade level tests are constructed as pre- and post-tests in both English and Mathematics, each item coded to specific CCSS standard. Each test is also aligned to the Classroom Matrix. The Facilitate-CCSS distribution is detailed below.

Facilitate-Common Core™ Item Bank

The Facilitate-CCSS Classroom Matrix is an easy-to-use, standards-aligned diagnostic tool that educators will use to quickly identify students' mastery of each CCSS standard for their grade.

The Item Bank is comprehensive, with a wide range of items of suitable difficulty and rigor. There are a sufficient number of items for test construction. Moreover, items can be modified to generate additional items if needed.

Facilitate-ACT™: SchoolSpire's New ACT-aligned Item Bank

Over the past 18 years, SchoolSpire has provided school districts across the nation reliable instructional management, assessment, curriculum, teacher evaluation, and lesson planning tools. We are pleased to expand our client services to include standards-based item banks including Facilitate-ACT™, which covers English and Mathematics ACT standards at this time.

Facilitate-ACT™: English and Mathematics Mock ACT Items

The ACT is a national college admissions test that over two million high school juniors and seniors complete annually. The ACT is based on rigorous standards and the test assesses multiple standards in a given question. With this in mind, we have developed multidimensional assessment items that mimic true ACT items.
