

Contract to use **Empower IMS™**
for Assessment by July 31st, 2017
and receive Facilitate™ & Facilitate-ACT™
FREE for contract term.

Facilitate-Texas Our 100% Aligned TEKS Item Bank

Access over 32,000 items coded specifically to TEKS standards in grades K-12. All four core content areas are represented. Additionally, a portion of this item bank offers Spanish items.

Our team is well-versed in pedagogical and assessment trends across the nation, which you'll notice reflected in the quality and breadth of our expanding TEKS item bank.

Texas educators under the direction and supervision of a team of experienced psychometricians actively participated in the creation and review of these Texas items.

Our Goal: Support Data-driven Instruction

Data-driven decision making relies on live data analysis of quality diagnostics and remedial indicators. It is our goal to support your efforts in using high-quality assessment data to drive instructional planning and decision-making, and our TEKS-aligned assessment items provide just that vehicle for data mining.

We have had front row seats to assessment frameworks and content growth in this industry over the last 18 years, which has shaped our vision and priorities for SchoolSpire IMS's growth. We have learned how critical having accessible, quality instructional and assessment content is for a district's success. That experience has driven SchoolSpire to invest in a TEKS-aligned item bank for our Texas clients – Facilitate™.

CONTENT AREA	ITEMS	PRE-BUILTS
English Language Arts	7,636	250
Mathematics	9,139	390
Social Studies	8,449	108
Science	7,260	243
TOTAL	32,484	991

Item Bank Highlight: Exit Surveys

We have completed a set of diagnostic exit surveys aligned to TEKS standards in English, Mathematics, Science, and Social Studies for grades K-12.

When administered in SchoolSpire **EMPOWER™** online Assessment Module, reports indicate objective-based (item level analysis) and summary scores for each assessment.

With this data, your teachers will quickly identify students at risk of falling behind and differentiate instruction to catch them back up to pace.

Facilitate™ & Partners

Facilitate-ACT™: SchoolSpire's New ACT-aligned Item Bank

Over the past 18 years, SchoolSpire has provided school districts across the nation reliable instructional management, assessment, curriculum, teacher evaluation, and lesson planning tools. We are pleased to expand our client services to include standards-based item banks including Facilitate-ACT™, which covers English and Mathematics ACT standards at this time.

Facilitate-ACT™: English and Mathematics Mock ACT Items

The ACT is a national college admissions test that over two million high school juniors and seniors complete annually. The ACT is based on rigorous standards and the test assesses multiple standards in a given question. With this in mind, we have developed multidimensional assessment items that mimic true ACT items.

ACT CCRS English Practice Tests	115
ACT CCRS Mathematics Practice Tests	60
ACT CCRS Mathematics Item Bank:	
Algebra	420
Algebra and Functions	299
Functions	173
Geometry	472

Navigate Item Bank - The largest repository of high-quality, standards-aligned assessment items available to educators.

Inspect® is an item bank and suite of over 300 pre-built assessments that offers an industry-leading combination of rigor, innovation, integrity, and instructional guidance throughout the school year. Ranging from short quiz-like checkpoints to full-length blueprint based end-of-year assessments, the suite of pre-built assessments can be used in any capacity to support instruction. Items used on the pre-built assessments are accompanied by rationales and rubrics to pinpoint concepts students are having difficulty mastering and likely reasons why.
