

The EMPOWER™ Instructional Management System is a fully integrated, web-based, K-12 software platform that meets the curriculum, instruction, assessment, and reporting needs of school districts.™

At School Spire, our primary focus is on providing high quality, easy-to-use solutions that provide districts with the tools to meet the ever evolving and challenging goals of providing the best quality education.

School Spire understands that every school district is a unique organization with different methods and needs. Our modular approach offers a system that allows you to choose which modules you want to implement, and when to implement each one. You build the system you want, taking only the components you need. Our system will also fully integrate with your district's existing systems, customized to your specific SIS implementation.

A True Integrated Solution...

Empower™ software framework revolutionized the educational process. Integrated modules provide a comprehensive approach to managing the process of education. Implementation plans are tailored to meet district needs, allowing a seamless and gradual deployment of modules over time as legacy systems are retired and replaced.

EMPOWER™ Modules:

- Assessment Management
- Curriculum Management
- Reporting PLUS
- Program Tracking
- Classroom Observations
- Gradebook Student/Parent Portal
- Graduation Planning
